WORKERS COMPENSATION CASE STUDY

How a strong Disability Management team can save you thousands.

AT A GLANCE

- Strong return to work plan in place
- The claims reduce year after year
- Client sees a decrease in premiums a whopping \$416,392 in savings!

OBJECTIVES

Reducing the costs of the Workers Compensation premiums.

We assist in all aspects of Disability Management including handling your Return to Work Programs.

Saving money by helping your clients with lost time days and duration resulting in lower premiums.

RESULTS

This client went from paying a rate of 8.96% in 2020 which resulted in premiums of \$645,479. Our team worked with the client to develop a strong Return to Work Plan and implement the plan. The client saw decreases each year and now 5 years later the rate is down to 3.18% and premiums of \$229,087.
